Sample specification

Sampling by: Owner/Sender Independent authority (e.g. veterinarian or breed warden)

Sample material: buccal swabs (2 samples) EDTA-blood (approx. 0.5 ml)

Please perform the buccal swab thoroughly and make sure that the dog being tested has not eaten anything for at least 30 minutes.
Further information about sample collection is available on our homepage.

Sample labeling: _____

Date of sampling: _____

I hereby confirm that the identity of the above-listed animal was verified and that the samples derive from the above-listed animal. _____
Stamp and signature independent authority

Independent authority name in block letters: _____

Submission of results

For every animal included in the parentage verification a DNA-Profile is needed (see current price list).

Parentage verification report is free of charge.

Test-results to: Owner/Sender Veterinarian

Invoice to: Owner/Sender Veterinarian

Certificates (DNA-profiles) Certificates are available for an additional charge of 7.14 € per animal.

- Certificates can only be issued if Chip-no. are provided. It is recommended that sampling is carried out by an independent authority (e.g. veterinarian or breed warden) to confirm sample origin.
- If DNA-profiles have to be generated for all involved individuals, parentage verification is free of charge, independent of the number of samples submitted. If DNA-profiles are provided by the submitter (e.g. DNA-profiles of the parents), parentage verification will cost 23.80 € (incl. VAT).
